

Environmental Policy

Our Environmental Vision:

“We will operate in an environmentally responsible manner”

We believe that:

- Our environmental commitments are an integral part of our day to day activities
- We are responsible for achieving good environmental practices
- We can have a positive impact on our operating environments
- Environmental stewardship is the responsibility of all employees

To achieve this we will:

- Maintain and continually improve our Health, Safety and Environmental Management System
- Proactively identify hazards and unsafe behaviours and take all steps to manage these to as low as reasonably practicable
- Set targets for improvement and measure, appraise and report on our performance
- Continually review opportunities to improve our environmental performance
- Ensure employees have the necessary training, skills, knowledge and resources to fulfil their environmental responsibilities
- Efficiently use our natural and physical resources
- Design, construct, and maintain our assets, and manage our operations, with the goal of preventing environmental incidents
- Require our business partners and contractors to demonstrate a similarly high level of commitment to environmental performance
- Comply with all relevant environmental laws and regulations

A handwritten signature in black ink that reads 'Jon Young'.
