

# PTW Safety Checklist No. 88

## PREVENTION OF DROPPED OBJECTS FROM HEIGHT

Other Checklists that may be relevant:		<a href="#">51, 55, 57, 71</a>
Permit Number:		Date:
Rev 2.1	Issue Date: 18/10/2022	Authorised By: PSM

### PRIOR TO COMMENCING TASK:

- |  | Y                        | N | N/A                      |            |  |                                 |  |                                  |  |  |  |
|--|--------------------------|---|--------------------------|------------|--|---------------------------------|--|----------------------------------|--|--|--|
| 1 'Drop Zone' established and barriered off where appropriate<br>See <a href="#">Temporary Barriers and Barricades Standard Operating Procedure.pdf</a> .  | <input type="checkbox"/> |   | <input type="checkbox"/> |            |  |                                 |  |                                  |  |  |  |
| 2 All scaffolds, platforms and structures have been inspected and found to have kick boards installed and no other gaps that tools or equipment can drop through.  | <input type="checkbox"/> |   | <input type="checkbox"/> |            |  |                                 |  |                                  |  |  |  |
| 3 For all Work at Height, at least <b>two</b> barriers shall be in place to prevent the potential fall of objects. The selected barriers are to be recorded below:   | <input type="checkbox"/> |   |                          |            |  |                                 |  |                                  |  |  |  |
| <table border="1" style="width: 100%; border-collapse: collapse;"> <tbody> <tr> <td style="padding: 5px;">• Lanyards</td> <td style="width: 50px;"></td> </tr> <tr> <td style="padding: 5px;">• Fish Bins (Temporary Storage)</td> <td></td> </tr> <tr> <td style="padding: 5px;">• Drop Cloth (Local Containment)</td> <td></td> </tr> <tr> <td style="padding: 5px;">• Full Containment i.e., Plywood or plastic sheeting enclosure</td> <td></td> </tr> </tbody> </table> |                          |   |                          | • Lanyards |  | • Fish Bins (Temporary Storage) |  | • Drop Cloth (Local Containment) |  | • Full Containment i.e., Plywood or plastic sheeting enclosure |  |
| • Lanyards   |                          |   |                          |            |  |                                 |  |                                  |  |  |  |
| • Fish Bins (Temporary Storage)  |                          |   |                          |            |  |                                 |  |                                  |  |  |  |
| • Drop Cloth (Local Containment)   |                          |   |                          |            |  |                                 |  |                                  |  |  |  |
| • Full Containment i.e., Plywood or plastic sheeting enclosure   |                          |   |                          |            |  |                                 |  |                                  |  |  |  |
| 4 Some work groups will struggle to implement two effective barriers i.e., abseiling / scaffolding. In these cases, the workgroup shall complete the following:  |                          |   |                          |            |  |                                 |  |                                  |  |  |  |
| • Drop zones actively managed i.e., grounds person (observer) in place   | <input type="checkbox"/> |   | <input type="checkbox"/> |            |  |                                 |  |                                  |  |  |  |
| • All tools are attached with lanyards   | <input type="checkbox"/> |   | <input type="checkbox"/> |            |  |                                 |  |                                  |  |  |  |
| 5 <b>For the movement of tools used at height:</b><br>Tool Bag available and suitable for hauling on a rope.<br>(consider condition, item / tool weight and the ability to fasten closed)  | <input type="checkbox"/> |   | <input type="checkbox"/> |            |  |                                 |  |                                  |  |  |  |

### ON COMPLETION OF TASK:

- |  |                          |  |                          |
|--|--------------------------|--|--------------------------|
| 6 Inspection of work area completed to ensure that no tools or equipment have been left at height. | <input type="checkbox"/> |  |                          |
| 7 All tools used at height are accounted for.  | <input type="checkbox"/> |  | <input type="checkbox"/> |
